MURIEL STEELE SOCIETY

New Senior Resident Spotlight!

Danielle Gillard, OHNS

What is your favorite memory from training?

Getting to perform a primary total laryngectomy alone with the fellow-- this case solidified my choice to pursue a Head and Neck Fellowship.

What's the best piece of advice you've received during your training?

Always take the time to introduce yourself and strike up friendly conversation with colleagues- even if they are not in your field- you never know when those connections can lead to new opportunities (in your career, research, surgical techniques, patient care, etc).

What do you like to do for fun?

Go to a concert at one of SF's iconic venues, try to find the best hamburger in the Bay Area and catch up with my friends!

The Muriel Steele Society is an inclusive community dedicated to inspiring, supporting, and promoting women and other gender minority surgeons so they can thrive at all stages of their careers. We will be hosting events throughout the year to foster a strong community of allies and to achieve the goal of continued excellence at UCSF. The Muriel Steele Society is dedicated to diversity, equity, and inclusion of colleagues, trainees, and learners at UCSF and beyond, who identify as women, transgender, and nonbinary in surgical fields. Our overarching goal is to advocate for a culture of belonging - free of bias and discrimination - that is focused on expanding the advancement of all genders and the broader LGBTQ+ community in surgery. All women and gender minority surgeons or medical students interested in surgery are included in the society but we recognize that some may have been inadvertently left out of these emails. Please forward to anyone who you think might like to be included in the MSS. If you are interested in membership, please email us at themurielsteelesociety@ucsf.edu.
